### **DO MORE WITH LESS – MAKE YOUR IT ASSETS WORK HARDER**

Leonardo Consulting are offering free half day workshops showing how you can use the Oracle BPA and SOA Suites to deliver outcomes rapidly and at a low cost. A practical case study will demonstrate how different applications can work seamlessly together to automate business processes.

### **FOR ANSWERS TO CRITICAL QUESTIONS REGISTER NOW FOR THE WORKSHOPS:**

- How can I get more from our IT investment in a tough spending environment?
- How can I speed up my application delivery while ensuring I meet business requirements fully?
- How long does it take to change or add to systems when processes change?
- How can I get my HR application to work with my Financials at the right cost?
- I have a mix of applications – How can I get PeopleSoft to work with SAP and Microsoft?
- How frequently does the business change its requirements? – I would like to see how quickly and with assurance of outcome a business need can be automated.
- What are the issues with documenting process for systems requirements?
