Business Process Modelling with ARIS Business Designer

INTRODUCTION

The ARIS System with its optional add-ons is an integrated approach to efficient business process management in your company. ARIS Design Platform is aimed at all those dealing with corporate change related to improved business processes in projects: from management through process-owner and central organisational departments, to the people responsible in technical departments.

BENEFITS

Upon completing this training course you will be able to represent your company's processes and structures using the ARIS method. You will learn how to utilise ARIS Business Designer and how to evaluate your models using reports and analyses.

METHOD

A lecture, demonstration, practical exercises with an applicable case study, discussion and exam.

COURSE CONTENT

- The ARIS method
- Graphic representation of corporate processes and structures
- Representing inter-relationships between models
- Re-using and navigating between objects
- Ensuring model quality
- Presenting models
- Analysing model content using reports and analyses

REQUIREMENTS

Knowledge of Windows, particularly of Windows Explorer, is required.

COURSE DURATION

Three days.
